Loans and advances are carried at book value as the amount of ultimate realization cannot be determined at this date.

No provision is made for commitments under construction contracts in force at March 31, 1966. Such future construction is chargeable to appropriations in the years in which the work is actually performed.

In my opinion the statement of financial condition is properly drawn up so as to show the true position of the Province of British Columbia at March 31, 1966, and is in accordance with the books of the Province.

REPORT OF THE AUDITORS

The Lieutenant-Governor in Council, Province of British Columbia:

We have examined the balance-sheet of British Columbia Hydro and Power Authority as at March 31, 1966, and the related statement of net income for the year ended on that date. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we consider necessary in the circumstances.

In our opinion, the accompanying balance-sheet and the related statement of net income present fairly the combined financial position of the Authority as at March 31, 1966, and the results of its combined operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTE 3—GUARANTEE BY PROVINCE OF BRITISH COLUMBIA.—The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt and parity development bonds.

NOTE 4—NOTES PAYABLE.—The notes payable were repaid in April, 1966, from the proceeds of an issue of \$40,000,000 5¼ per cent Series U bonds due April 18, 1991.

NOTE 5—INTEREST.—Included in interest and other costs on debt is \$1,621,960 for amortization of discount and expense on long-term debt and parity development bonds, and a deduction of \$1,922,343 for income from sinking fund investments.

NOTE 6—TAXES ON INCOME.—Final assessments for taxes on income payable by British Columbia Electric Company Limited and its subsidiary companies were received and settled during the year in the amount of \$1,098,511. The unrequired balance of the provision for taxes on income, amounting to \$2,639,076, has been added to Stabilization of Rates and Contingency Reserve.

NOTE 7—COLUMBIA RIVER TREATY.—The Authority is the Canadian entity for purposes of the Columbia River Treaty between Canada and the United States and is required to construct three storage dams—Duncan, Arrow, and Mica. Canada's entitlement to half the increased power generation in the United States resulting from the construction of the three dams was sold to the Columbia Storage Power Exchange for periods of 30 years from the scheduled dates of completion of the respective dams. As a result of this sale, the Government of British Columbia received the sum of \$273,291,661. This amount was transferred to the Authority on September 16, 1964, and, with interest in the amount of \$22,626,121, had increased to \$295,917,782 as at March 31, 1966. This sum has been applied as follows:—

The amount of this cost is not known at the present time.

NOTE 10—COMMITMENTS.—(a) In addition to the general commitment to construct the three storage dams on the Columbia River (referred to in Note 7), in respect of which the uncompleted portions of contracts entered into as at March 31, 1966, amounted to a total of \$88,000,000, other commitments and contracts of the Authority for capital projects and inventories of materials and supplies aggregated approximately \$228,000,000 as at March 31, 1966.

We have examined the balance-sheet of the Pacific Great Eastern Railway Company as at December 31, 1965, and the statement of consolidated income for the year ended on that date and have received all the information and explanations required by us.
